**University of Iowa  
Epic Secure Chat**

*Issued September 17, 2025*

Status: Open

Epic Secure Chat is the messaging platform utilized within UI Health Care to facilitate secure communication between clinical staff. The audit was performed to assess the effectiveness of Secure Chat's controls and determine whether communication workflows align with institutional goals for secure and efficient messaging. One recommendation was made to align the nurse call system with Secure Chat and phase out the use of Voalte to reduce fragmentation and improve consistency in clinical communications. Management expects to complete this recommendation by December 2025.

**University of Iowa  
Magid Center for Writing**

*Issued September 17, 2025*

Status: Open

The Magid Center for Writing is part of the College of Liberal Arts and Sciences and administers a collection of programs in three areas: student success, professional skill building, and outreach. The audit was performed to evaluate whether proper controls are in place and determine whether opportunities for improvement exist. Primary audit recommendations include consistently completing I-9s, verifying volunteer background checks and required trainings are completed before duties are performed, confirming completion of participant liability waivers, creating formal agreements with public schools where volunteers are working, and performing security reviews for all department systems. Management expects to complete its action plans by July 2026.

**University of Iowa  
Offsite Clinics***Issued September 17, 2025*

Status: Open

The University of Iowa Health Care enterprise operates offsite outpatient clinics across Iowa, under the University of Iowa Community Clinics, which offer acute, primary and specialty care. The audit evaluated the effectiveness of controls over offsite clinic operations, specifically at the Bettendorf and Sioux City locations. Primary audit recommendations include establishing a key management process at the Radiation Oncology clinic, conducting regular badge access reviews and deactivating badge access for former employees at the Hematology Oncology clinic, requiring all staff involved in cash handling to complete required trainings, and submitting documented cash handling procedures at Sioux City Family Medicine clinic to Account and Financial Reporting for approval. Management expects to complete their action plans by October 2025.

**University of Iowa  
Stanley Museum of Art***Issued September 17, 2025*

Status: Open

The Stanley Museum of Art opened its current building in August 2022, after the original University of Iowa (UI) Museum of Art was permanently vacated in June 2008 during major flooding of the Iowa River. The museum's art collection consists of nearly 17,000 artworks from a variety of artists, cultures, and mediums. This audit was performed to evaluate if proper controls are in place and determine whether opportunities for improvement exist. Audit recommendations include implementing a consistent process for the valuation and reporting of donated art, performing timely art inventory in accordance with departmental policies, and implementing processes to ensure consistent compliance with UI policies and guidelines related to system information security reviews and employee training. Management expects to complete its action plans by January 2026.

**University of Iowa  
Student Health***Issued September 17, 2025*

Status: Closed

The Student Health audit was performed to evaluate clinical operations and human resources (HR) process controls. Observations and testing of the department's scheduling, insurance verification, coding, billing, compliances, and HR processes were performed. No material audit findings or weaknesses were noted during this audit. This audit is closed.

**Iowa State University  
4-H Youth Development***Issued September 17, 2025*

Status: Open

The department of 4-H Youth Development operates within the ISU Office of Extension and Outreach. It is a facilitator of the national youth development program of the Nation's Cooperative Extension System and United States Department of Agriculture. Audit review and testing included financial monitoring, data and software management and oversight, regulatory compliance, and program expectations. Audit recommendations focused on volunteer monitoring, system access management, and documenting financial reporting processes. Management expects to complete its action plans by January 2026.

**Iowa State University  
Center for Wireless, Communities and Innovation***Issued September 17, 2025*

Status: Open

The Center for Wireless, Communities and Innovation (WiCI) conducts research related to rural wireless networking to advance the applications of internet connectivity. Primary audit recommendations involve formalizing processes related to center oversight, financial management, and ethical awareness. Management expects to complete its action plans by February 2026.

**Iowa State University  
Student Wellness***Issued September 17, 2025*

Status: Open

Student Wellness is a unit within Student Health and Wellness that provides administrative oversight of program initiatives and resources. Audit recommendations include formalizing procedures for programs and required volunteer training, creating a comprehensive budget process, developing oversight procedures for the student food pantry, and creating a standardized process to consistently review software access. Management expects to complete action plans by January 2026.

**University of Northern Iowa  
StarRez***Issued September 17, 2025*

Status: Open

The University of Northern Iowa (UNI) has been in an active contract with StarRez, a third-party property management software, since 2009. All university-owned housing and dining plans for students are managed through this software. Audit review and testing included training completion, data reporting, user access, billing, and key distribution. Audit recommendations focused on user access reporting, rate update verification, and access to forms. Management has completed the rate update verification and access to forms action plans. The remaining action plan, user access reporting, will be completed by June 2026.
